

evertz.io is a scalable cloud-based microservice platform designed to offload segments of your workflow to the cloud without big commitments.

Assist: R 18+

FEATURES & BENEFITS

- Easily iterate through suggested nudity, adult and offensive content using Mediator-X interface.
- Quickly locate all the time codes where there is nudity or offensive content.
- Request scene information from evertz.io from a proxy version of an asset (MPEG4 or DASH), saving you time and bandwidth.

ORDERING INFORMATION

Contact your preferred Evertz Associate for more details.

Assist:R is a service that allows users to quickly flag content by time-code and label for potential nudity, suggestive and offensive content. Volumes of operator hours saved and keeping a record for easy post-review, when vetting content for different broadcast regions and time of day moderation.
